Substitute for an act to provide for a system of public instruction. The bill was considered by sections. Section 3 was amended by inserting a

proviso that no sectarian or political textbook shall be used. Mr. Painter moved to amend the proviso by saying that text-books, manuscripts and other school teaching materials of permanent residents of this State shall at all times have precedence, and shall be selected by the State Board of Education when the same can be obtained. Lost.

The section was then adopted. Quite along debate took place upon the recommendation of the committee to strike out section 4, which reads as follows :-"The text books selected and presented by the Board of Education shall remain in use for a period of not less than five

Mr. Bowman said that unless this section was stricken out, he would look upon the bill as an attempt to force upon the people of North Carolina a certain system education in order to instil into the minds of the pupils certain creeds, theories and principles utterly repugnant to all of our preconceived notions and ideas of what is right and proper.

Mr. Ingram said he thought that if this portion of the bill stood as was, the title should be changed, and instead of being the whole matter on the table. Lost—yeas an act to provide for a system of public instruction, it should be called a bill to establish a publishing house for the benefit of certain speculators.

He hoped the section would be stricken

Messrs. French, Foster and Stilley opposed the striking out of the section.
